I acknowledge that in conjunction with the fence to be installed at the above address, the City of Coral Springs requires landscaping in front of fence sections facing a road or water right-of-way.

The landscaping is to consist of shrubs planted at a minimum height of 18 to 24 inches with spacing between 18 and 24 inches when measured immediately after planting.

I agree to install the required landscaping within 60 days from the issuance of the fence permit and schedule the required inspection within that time period. I understand that failure to pass the inspection within 60 days will result in code violations and fines being assessed against the subject property.

Unless you schedule and pass the required inspection prior to 60 days from issuance of your permit, the Building Department will automatically schedule this inspection.
