

GOALS, OBJECTIVES AND POLICIES

Goal 1.0.0. To annually adopt and utilize a 5-Year Capital Improvements Program and Annual Capital Budget to coordinate the timing and to prioritize the construction and redevelopment of public facilities which support the implementation of the Comprehensive Plan in a manner that protects investments in existing facilities and promotes orderly growth.

Objective 1.1.0. The City shall require construction and redevelopment of new or existing public facilities identified in the Comprehensive Plan to meet existing deficiencies, to accommodate desired future growth and to replace obsolete or worn out facilities.

Measure: Implementation of Capital Improvements Program that meets the below criteria.

Policy 1.1.1. The City shall include in the 5-Year Schedule of improvements all projects identified in the other elements of this Comprehensive Plan and estimated to be (\$5000 or greater) and expected life of at least five years.

Policy 1.1.2. The City shall continue to use the Capital Improvements Program Review Committee composed of the City Manager, Deputy City Managers, the department requesting the capital and staff from the Budget and Strategy Department to discuss all capital requests with further justification, research, and analysis during the budget meetings. If the need proves to be valid and the capital is part of the City's overall strategic plan, the project is recommended for approval. The Senior Management Team reviews the entire list of proposed capital projects along with the funding sources and restraints. A final list of projects is recommended to the City Commission by this team for inclusion in the capital budget.

Objective 1.2.0. The City shall ensure that future development pays a proportionate share of the cost of public facilities improvements necessitated by a project.

Measure: Number of facility impact assessments completed, and fees collected.

Policy 1.2.1. The City shall continue to implement the Master Parks Plan and related agreements for the provision of recreation and open space area.

Policy 1.2.2. The City shall continue to implement its program for mandatory dedications or fees in lieu of dedication for the provision of recreation and open space.

Policy 1.2.3. The City shall consider the use of other impact fees as may become necessary.

Objective 1.3.0. The City shall, at a minimum, base its decisions regarding the issuance of development orders and permits for new developments and developments for which development orders were issued prior to adoption of this plan upon coordination of the development requirements included in this plan, the land development regulations, and the availability of necessary public facilities needed to support such development at the time needed.

Measure: The extent to which development proposals have been evaluated for consistency with the plan, existing regulations and LOS impacts.

Policy 1.3.1. The City shall use the LOS standards identified in this element and within other elements of the Comprehensive Plan in reviewing the impacts of new development and redevelopment upon public facility provision. These adopted LOS standards are as follows:

TRANSPORTATION

Policy 1.3.2. The concurrency management system shall establish the following transportation Level of Service (LOS) standards:

1. Within the City's Multi-Modal Transportation Concurrency District the transportation LOS standards, for the purpose of issuing development orders and permits, are to achieve and maintain the following by FY 2030:
 - (a) Coordinate with Broward County to achieve headways on all mainline transit routes serving the City to 30-minutes or less.
 - (b) Coordinate with Broward County and neighboring communities within the North Central Multi-Modal Concurrency District to establish at least one additional community bus route.

CAPITAL IMPROVEMENTS ELEMENT

- (c) Coordinate with Broward County and neighboring communities within the North Central Multi-Modal Concurrency District to expand the transit coverage.
- (d) The City will continue coordinating with Broward County to increase the number of bus shelters within the City as appropriate.
- (e) The City will coordinate with Broward County to increase transit ridership during weekday peak-hour time periods.
- (f) The City shall maintain the maximum service volumes on arterial roadways as displayed below:

Peak Hour Two-Way Maximum Service Volumes*	
Two-lane arterials	2,328
Four-lane arterials	5,110
Six-lane arterials	7,875
Eight-lane arterials	10,605

*The Maximum Service Volumes are calculated from “Generalized Peak Hour Two-Way Volumes for Florida’s Urbanized Areas”, published by the Florida Department of Transportation, as 75% above the volumes for Class II State Two-Way Arterials, for Level of Service D.

[Note: Headway standards apply only to non-contract BCT routes].

- 2. Within the City’s Northwest Standard Concurrency District, the transportation LOS standard, for the purpose of issuing development orders and permits, is the generalized two-way peak-hour LOS “D” standard volumes depicted on Table 4-4, Quality/Level of Service Handbook, Florida Department of Transportation, (2020), shown below:

Peak Hour Two-Way Maximum Service Volumes Within the Northwest Standard Concurrency District*	
Two-lane arterials	1,330
Four-lane arterials	2,920
Six-lane arterials	4,500

CAPITAL IMPROVEMENTS ELEMENT

Eight-lane arterials	6,060
----------------------	-------

*An alternative maximum service volume on arterial roadways, or segments thereof, may be established by the City based upon a specific roadway link analysis prepared by a traffic engineer if approved by the City, Broward County, or FDOT.

The City establishes a minimum level of service standard of "D" for locally maintained collector roadways.

SANITARY SEWER

Policy 1.3.3. The following levels of service standards are hereby adopted:

Water Service Area	Level of Service Standard/ gallons per day per capita
Coral Springs Public Utilities	101.00
North Springs Improvement District	113.00
Royal Waterworks, Inc.	106.00
Coral Springs Improvement District	109.00

Policy 1.3.4. To calculate sanitary sewer demand through a land development action, the City shall utilize the following to calculate demand. The City shall provide the additional sanitary sewer demand to the appropriate district and ensure that the level of service for each service area is maintained.

Land Use Type	Sewerage Availability
Residential Low	350 gpd/du
Residential Moderate	300 gpd/du
Residential Medium	250 gpd/du
Residential High	165 gpd/du
Commercial/Industrial	2,000 gpd/acre
Public/Civic	2,000 gpd/acre

POTABLE WATER

Policy 1.3.5. The following level of service standards are hereby adopted

CAPITAL IMPROVEMENTS ELEMENT

Water Service Area	Level of Service Standard/ gallons per day per capita
Coral Springs Public Utilities	101.00
North Springs Improvement District	113.00
Royal Waterworks, Inc.	106.00
Coral Springs Improvement District	109.00

Policy 1.3.6. To calculate potable water demand through a land development action, the City shall utilize the following to calculate demand. The City shall provide the additional potable water demand to the appropriate district and ensure that the level of service for each service area is maintained.

Land Use Type	Potable Water Demand
Residential Low	350 gpd/du
Residential Moderate	300 gpd/du
Residential Medium	250 gpd/du
Residential High	165 gpd/du
Commercial/Industrial	2,000 gpd/acre
Public/Civic	2,000 gpd/acre

SOLID WASTE

Policy 1.3.7. The following level of service standards are hereby adopted, and shall be used as the basis for determining the availability of facility capacity and the demand generated by a development:

Land Use	Level of Service Standard
RESIDENTIAL	8.9 lbs. per unit per day
INDUSTRIAL & COMMERCIAL	
Factory/Warehouse	2 lbs. per 100 sq. ft. per day
Office Building	1 lb. per 100 sq. ft. per day
Department Store	4 lbs. per 100 sq. ft. per day
Supermarket	9 lbs. per 100 sq. ft. per day
Restaurant	2 lbs. per meal per day
Drug Store	5 lbs. per 100 sq. ft.

CAPITAL IMPROVEMENTS ELEMENT

SCHOOL

Grade School	10 lbs. per room & 1/4 lbs. per pupil per day
High School	8 lbs. per room & 1/4 lbs. per pupil per day

INSTITUTION

Hospital	8 lbs. per bed per day
Nurse or Interim Home	3 lbs. per person per day
Home for Aged	3 lbs. per person per day
Rest Home	3 lbs. per person per day

DRAINAGE

Policy 1.3.8. The following level of service standards are hereby adopted, and shall be used as the basis for determining the availability of facility capacity and the demand generated by a development:

Facility/Services Area	Level of Service Standard
Drainage Facilities City-Wide	Storm Design Primary drainage system - 10 Year – 1-day storm event. Cumulative rainfall total of 8.0 Inches. Secondary – drainage system - 3-year storm event with varying time of concentration duration. Cumulative rainfall derived from Florida Department of Transportation (FDOT) Rainfall intensity – Duration – Frequency Curves for Zone 10. House pads – first floor building elevations at, or above, the 100-year flood stage. Roadways - Roadways and parking lot elevations at, or above the 10-year flood stage.

RECREATION AND OPEN SPACE

To maintain a level of service for public parks of at least four (4) acres (of developed park land) per 1,000 population within the City.

Policy 1.3.9. The Coral Springs Development Action review and approval process will require that necessary facilities and services will be available concurrent with the impacts of development through any of the following situations. Development Action includes any comprehensive plan amendment, building permit, zoning permit, subdivision, site plan approval, rezoning, certification, special exception, variance, or any other official action of the City Commission or other appropriate City official having the effect of permitting the development of land.

1. The necessary facilities are in place at the time a Development Action is approved by the City Commission or other appropriate City officials or the Development Action is approved subject to the condition that the necessary facilities will be in place when building permits are issued.
2. The necessary facilities are under construction at the time a Development Action is approved by the City Commission or other Appropriate City officials.
3. The necessary facilities are the subject of a binding contract executed for the construction of those necessary facilities at the time a Development Action is approved by the City Commission or other appropriate City officials.
4. The necessary facilities have been included in the municipal, county or state annual budget at the time a Development Action is approved by the City Commission or other appropriate City officials although the facilities are not yet the subject of a binding contract for their construction.
5. At the time a Development Action is approved by the City Commission, or other appropriate City officials the City is able to assure that the necessary facilities will be in place within a reasonable period of time consistent with the requirements of Section 163.3202(2)(g), Florida Statutes, as amended. At a minimum, the necessary facilities are to be included within a financially feasible Capital Improvements Element or an alternative implementation plan which is determined by the Florida Department of Community Affairs to be in compliance with

CAPITAL IMPROVEMENTS ELEMENT

Rule 9J-5 of the Florida Administrative Code and supported by all necessary regulations and a concurrence monitoring system.

Policy 1.3.10. Proposed comprehensive plan amendments and requests for new Development or redevelopment shall be evaluated according to the following guidelines. Is the proposed action:

1. Consistent with the Sanitary Sewer, Solid Waste, Drainage, Potable Water, and Natural Groundwater Recharge Sub-Elements, and does not contribute to a condition of public hazard.
2. Consistent with the Transportation Element, Sanitary Sewer, Solid Waste, Drainage, Potable Water, Natural Groundwater Recharge Sub-elements and Recreation and Open Space Element and does not exacerbate any existing condition of public facility capacity deficits.
3. Generating public facility demands that any be accommodated by planned capacity increases.
4. In conformance with future land uses as shown on the Future Land Use Plan Map of the Future Land Use Element, and service areas as described in the Sanitary Sewer, Solid Waste, Drainage, Potable Water, and Natural Groundwater Recharge Sub-Elements.
5. To address public facility demands based upon LOS standards by provision of facilities by the developer or by the City consistent with this element.
6. Consistent with the plans of State agencies and the water, sewer, drainage improvement/management districts' facilities plans.

Objective 1.4.0. The City, in collaboration with the School Board, Broward County and non-exempt municipalities shall ensure that public school facilities are available for current and future students consistent with available financial resources and the adopted level of service (LOS).

Measure: School enrollment projections compared to the School District's Adopted Five-Year DEFP, as adopted in the Capital Improvement Element.

Policy 1.4.1. Consistent with policies and procedures within the Interlocal Agreement for Public School Facility Planning (ILA), the DEFP shall contain a 5-year financially feasible schedule of capital

improvements to address existing deficiencies and achieve and maintain the adopted LOS in all Concurrency Service Areas (CSA).

Policy 1.4.2. The Level of Service is divided into two categories. Type A is an elementary, middle school, or high school that has the equivalent of at least 10% of its permanent capacity available onsite in relocatables. The LOS for School Type A is 100% of gross capacity (including relocatables). Type B is an elementary, middle school, or high school that has less than the equivalent of 10% of its permanent capacity available onsite in relocatables. The LOS of School Type B is 100% of permanent capacity.

Policy 1.4.3. The adopted LOS shall be applied consistently by Broward County, the municipalities and the School Board, district-wide to all schools of the same type.

Policy 1.4.4. The School Board's District Educational Facilities Plan (DEFP), including pages 1 through 260 and appendices A through D, dated September 1, 2020, are adopted by reference in the CIE.

Objective 1.5.0. The City, in collaboration with the City's Utilities Division, the North Springs Improvement District, the Coral Springs Improvement District and Royal Waterworks, Inc. or any successors, shall ensure that sufficient funding is available for the 10-year water supply plan to provide potable water in the quantity and quality necessary to satisfy existing and projected growth within the City of Coral Springs.

Measure: Annual per capita cost of capital projects to meet demand.

Policy 1.5.1. The City shall adopt the Capital Improvement Plans of the Coral Springs Improvement District (CSID), North Springs Improvement District (NSID) and Royal Waterworks, Inc. or any successors by reference in the 10-Year Water Supply Facilities Work Plan adopted as part of Attachment A of the Potable Water Sub-Element.

Objective 1.6.0. The City in collaboration with the Broward County Metropolitan Planning Organization (MPO) shall ensure that sufficient funding is available to satisfy existing and projected growth and the adopted level of services to meet existing deficiencies, to accommodate desired future growth and to replace obsolete or worn-out facilities.

Measure: Number of improvements in the MPO plan that meet one of the three criteria.

CAPITAL IMPROVEMENTS ELEMENT

Policy 1.6.1. The City shall adopt the Transportation Improvement Plan of the Broward County Metropolitan Planning Organization or any successors by reference into the City of Coral Springs Capital Improvement Element as identified in Appendix A of the Data and Analysis Section of the Capital Improvements Element.
