## FIRE SAFETY TIPS

***An emergency can take place day or night without notice.  
Be prepared to properly protect yourself and your family.***

1. Call **9-1-1**: This will initiate assistance to your location.
  - Make sure to provide the address where you are located.
  - Immediately advise what the emergency is; **Fire**, **EMS** or **Law Enforcement**.
2. **Evacuation**: In the event you must evacuate this dwelling, please refer to the diagram provided in your living quarters.
  - You should take a few minutes to familiarize yourself and your family with the exits in case of an emergency during your stay.
3. **Working smoke alarms**: Push the button to activate the alarm. This will let you know it is powered.
4. **Fire extinguishers**: Check the gauge to ensure the arrow is located within the green section.
  - See the directions for P-A-S-S found on the extinguisher or below.
